

SAMPLE

FROM 475 TO 1,850 GPD (1,800-7,000 LPD) OF PURE WATER

**PURE WATER FOR MID
TO LARGE-SIZED YACHTS**

This sample watermaker series is designed for fully automatic operation, with production capacities of up to 1,850 gallons per day. Designed for ease of use and maintenance, the system simplifies troubleshooting through an intuitive 7" full-color touchscreen controller.

Built with advanced engineering and high-efficiency membranes, these watermakers provide superior freshwater production for mid to large-sized yachts. Designed for flexibility, they are available in compact or modular configurations to fit different engine room layouts.

HIGHLIGHTS

- Fully automatic operation
- 7" full color touch screen controller
- Available in compact or modular configurations
- Designed for easy service and maintenance
- Fresh water flush system
- High rejection membranes
- Dual voltage 50/60Hz motors
